DETAILED ACTION

Status of Claims

1. Claims 1-8 are pending.
Claims 1 and 2 are rejected.
Claims 4 and 8 are objected.
Claims 3 and 5-7 are withdrawn.

Continued Examination Under 37 CFR 1.114

2. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on August 23, 2006 has been entered.

Election/Restrictions

3. Claims 3 and 5-7 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected species, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on July 14, 2005.
4. No prior art has been found that anticipates or renders obvious the elected species, 1,4-bis(1-methyl-1-vinyloxyethyl)benzene, therefore the search of the Markush-type claim was extended to include the species of claim 2. Prior art has been found that anticipates or renders obvious claim 2, which is a nonelected species. Thus, claims 1 and 2 are rejected and claims 3 and 5-7, which are also drawn to nonelected species are withdrawn from further consideration.

Claim Rejections - 35 USC § 102

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

6. Claims 1 and 2 are rejected under 35 U.S.C. 102(b) as being anticipated by Hurd et al. (Journal of the American Chemical Society, September 1935, Vol. 57, pp. 1731-1734) or Gent et al. (Journal of the Chemical Society [Section] C: Organic, April 1970, (16), pp. 2253-2255).

Hurd et al. and Gent et al. teach the aromatic vinyl ether compound of claim 2 (see entire disclosure of each reference, in particular column 2, page 1731 of Hurd et al. and compound IX in column 2 on page 2253 of Gent et al.).

Allowable Subject Matter

7. Claims 4 and 8 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

8. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Rosalynd Keys whose telephone number is 571-272-0639. The examiner can normally be reached on M-W & F 5:30-8:30 am & 1-5 pm; Th 5:30 am-5:30 pm.
